Appendix

MOE Regulations Regarding International Students Undertaking Studies in Taiwan

** Notes: In the event of discrepancies between the Chinese version and the English version of this Regulation, the Chinese version shall prevail.*

Amended on January 22, 2021

- Article 1 These Regulations are formulated in accordance with the provisions of Article 25, Paragraph 3 of the University Act, Article 32, Paragraph 1 of the Junior College Act, Article 41, Paragraph 1 of the Senior High School Education Act, and Article 6, Paragraph 3 of the Primary and Junior High School Act.
- Article 2 A person of foreign nationality who has never held Republic of China (“R.O.C.”) nationality and who meets the following requirements is permitted to apply for admission to an educational institution, in accordance with the provisions of these Regulations:
1. The person has never undertaken studies in Taiwan as an overseas Chinese student.
 2. The person has not been given a placement in the current academic year by the University Entrance Committee for Overseas Chinese Students in accordance with the Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan.
- A person of foreign nationality who meets the following requirements and who in the immediate past has resided overseas continuously for at least six years is also permitted to apply for admission to an educational institution, in accordance with these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.
1. A person who at the time of their application also holds dual R.O.C. nationality shall have never had household registration in Taiwan.
 2. A person who before the time of their application also held dual R.O.C. nationality but no longer does at the time of their application shall have renounced their R.O.C. nationality with the approval of the Ministry of the Interior on a date at least eight full years before making their application.
 3. A person referred to in either of the preceding two subparagraphs shall meet the requirements stipulated in Subparagraph 1 and Subparagraph 2 of the previous paragraph.
- A foreign national who was selected by a foreign government, organization, or school to study in Taiwan in accordance with the Education Cooperation Framework Agreement, and who has never had household registration in Taiwan may be given exemption from the restrictions set out in the preceding two paragraphs if the competent education administrative authority gives approval.
- The periods of six years and eight years stipulated in Paragraph 2 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.
- The term “overseas” used in Paragraph 2 refers to countries or regions other than the Mainland Area, Hong Kong, and Macau; the term “reside overseas continuously” means that an international student has stayed in Taiwan for no more than a total of 120 days in each calendar year. When calculating the number of consecutive years spent overseas, if the initial or final year of the period is not a complete calendar year, any time spent in Taiwan in the initial or final year must not exceed 120 days. However, time that a person has spent in Taiwan is not subject to this restriction and it is not counted when calculating how long they were in Taiwan in a particular year if the person has documentary proof that they:
1. attended an overseas youth training course organized by the Overseas Compatriot Affairs Council or a technical professional training program accredited by the Ministry of Education;
 2. spent a total period of less than two years undertaking Chinese language classes at a Chinese language center at a university or tertiary college which has Ministry of Education approval to recruit students overseas;

 4. spent a total period of less than two years undertaking an internship that they came to Taiwan to undertake with the approval of the designated central competent authority.
- A person who held both foreign and R.O.C. nationalities and applied for annulment of their R.O.C. nationality before the date of effect of the February 1, 2011 amendment to these Regulations may apply for admission as an international student in accordance with the provisions in place before the amendment and is not subject to the restrictions set out in Paragraph 2.
- Article 3 An applicant of foreign nationality, who is eligible for permanent residence in Hong Kong or Macao, who has never had household registration in Taiwan, and who at the time of their application has resided in Hong Kong, Macao, or elsewhere overseas continuously for at least six years may apply for admission in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.
- The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period of continuous residence referred to in the previous paragraph.
- A person who was formerly from the Mainland Area and who has foreign nationality and has never had household registration in Taiwan, and who at the time of their application has resided overseas continuously for at least six years may apply for admission to an educational institution, in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.
- The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period that they resided continuously overseas referred to in the previous paragraph.
- The periods of six years and eight years stipulated in Paragraph 1 and in Paragraph 3 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.
- The definition of “overseas” given in Paragraph 5 of the previous article also applies, mutatis mutandis, to Paragraphs 1 to 4.
- Article 4 An international student applying to study at an educational institution in Taiwan in accordance with the provisions of the two previous articles is limited to only applying once. If a student wants to continue studying in Taiwan, their application shall be handled in the same manner as the admission procedures for domestic students. However, this requirement does not apply to an international student in either of the following circumstances:
1. If an international student is applying for admission to a master’s degree or higher level program after completing the course of study at the

- educational institution to which they originally applied, the university to which the student is now applying shall handle the application in accordance with its regulations;
2. If an international student applied to come to Taiwan to undertake a bachelor's degree or lower level program in Taiwan and after coming to Taiwan stayed for less than one year for some reason then discontinued their studies or forfeited their student status, that student may lodge another application to come to Taiwan to study, but only one such re-application is permitted.
- If an educational institution in Taiwan where an international student was studying considers that their conduct or academic performance was unsatisfactory, or if the student seriously violated any ordinances or the regulations of the educational institution and the circumstances were serious and as a result, in accordance with the provisions of its regulations governing student awards and penalties had to discontinue their studies or forfeited their status as a registered student, the student is not permitted to re-apply to study in Taiwan on the basis of the provisions of the previous paragraph.
- Article 5 In principle, the actual number of places available for international students to be admitted to universities and two-year programs at junior colleges (hereunder referred to as "universities and tertiary colleges") is limited to an additional ten percent above the admission quota that was approved for the institution for the previous academic year by the Ministry of Education, and that number shall be incorporated into the total admission quota and reported to the Ministry of Education for approval. A university or junior college applying to recruit more than an additional ten percent shall submit a report of the planned increment (including associated quality control strategy and supportive measures) to the Ministry of Education for approval. Degree programs offered by collaborating domestic and foreign universities that have been approved on a case by case basis by the Ministry of Education are not subject to this restriction.
- The actual number of international students that may be admitted to a five-year program at a junior college, or to a senior secondary school, junior high school, or an elementary school is limited up to an additional ten percent above the admission quota that was approved for the institution for the previous academic year that was approved by the competent education administrative authority, and that number shall be included in the total number of students admitted for that academic year and be reported to the competent education administrative authority for approval.
