

AJOU UNIVERSITY

Explore Ajou, Experience the World in Korea

Ajou University is one of the leading research-intensive universities in Korea. The history of Ajou goes back to 1971 when Korea and France entered into an agreement for the establishment of the Korea-France technology college with the aim of exchanging technology and culture through education. Based on the agreement, Ajou Engineering College, the forerunner of Ajou University, was founded in 1973. In 1981, the college became a comprehensive university and was renamed as Ajou University.

Today, Ajou University is widely acknowledged as a leading comprehensive university in the country. Ajou is also recognized for its international programs and strong support for international students. It has collaborative partnership with over 300 universities in nearly 70 countries and welcomes about 1,000 international students a year through its student exchanges, degree programs, language courses, summer school, etc.

Why Ajou?

Academic Excellence 	12 Schools and Colleges 	38 Departments
